SOLENOID OPERATED
DIRECTIONAL CONTROL VALVE

Note:
1. The RM directional control valves are of the RS type, as two directional control valves are mounted in one block (monoblock directional control valve).
2. For technical data see p. 1.2.
3. Tightening torque for the solenoids to the directional control valves - 25 N.m.

ORDERING CODE

RM 06 .. / ..

Port threads "G" - code:
G3/8" - omit

Operating voltage - code:
12V / 00Hz - 12
24V / 00Hz - 24
